WORK EXPERIENCE

Front-End Developer

AGI Alliance GROUP

September 2025 - January 2026

- Developed and optimized Telegram Mini Apps (TMA) using React.js, ensuring a seamless mobile-first user experience.
- Integrated Telegram Web Apps SDK to handle user authentication and synchronize platform-specific themes.
- Collaborated with backend teams to integrate game data and user progress via RESTful APIs.

Front-End Developer (Freelance)

January 2025 - August 2025

- Developed high-performance, responsive landing pages for international clients using React.js and JavaScript.
- Utilized SCSS for modular and maintainable styling, ensuring pixel-perfect UI across all devices and browsers.
- Focused on creating reusable UI components to speed up development and ensure code consistency.
- Optimized web pages for fast loading times and improved user engagement through clean, efficient code.

TECHNICAL SKILLS

- Front-End: HTML, CSS, Sass, Scss, JavaScript, React.js, Redux/Toolkit, TypeScript.
- Tools: Git, GitHub, Figma.
